# GRADU **PUCRS** online

## TEMPLATE PARA ENTREGA DO PROJETO DA DISCIPLINA

# Programação Orientada a Objetos

Fase 1 - Diagrama de Classes

Nome do estudante: Leonardo Rodrigues Lima

#### Classes Base:

#### Sala

- nome: String

- objetos: Map<String, Objeto>

- ferramentas: Map<String, Ferramenta>

- portas: Map<String, Sala>

- engine: Engine

+ get nome(): String + get objetos(): Map

+ get ferramentas(): Map

+ get portas(): Map

+ get engine(): Engine

+ objetosDisponiveis(): String[]

+ ferramentasDisponiveis(): String[]

+ portasDisponiveis(): String[]

+ pega(String): Boolean

+ sai(String): Sala

+ textoDescricao(): String

+ usa(): Boolean

#### Mochila

- ferramentas: List<Ferramenta>

capacidade: Number

+ adicionar(Ferramenta / Objeto): Boolean

+ remover(String): Ferramenta / Objeto

+ listarFerramentas(): String[]

#### Objeto

- nome: String

- descricaoAntesAcao: String

descricaoDepoisAcao: String

- acaoOk: Boolean

+ get nome(): String

+ get acaoOk(): Boolean

+ set acaoOk(Boolean): void

+ get descricao(): String

+ usar(String): void

## Engine

- mochila: Mochila - salaCorrente: Sala

- fim: Boolean

+ get mochila(): Mochila

+ set mochila(Ferramenta): void

+ get salaCorrente(): Sala

+ set salaCorrente(Sala): void

+ indicaFimDeJogo(): void + criaCenario(): void

+ joga(): void

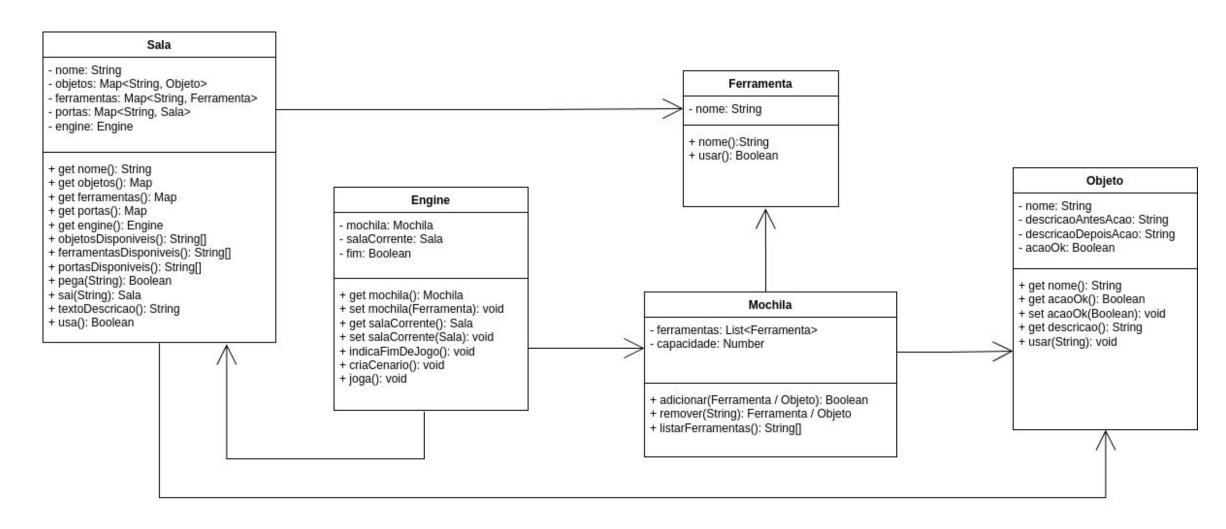

#### Ferramenta

- nome: String

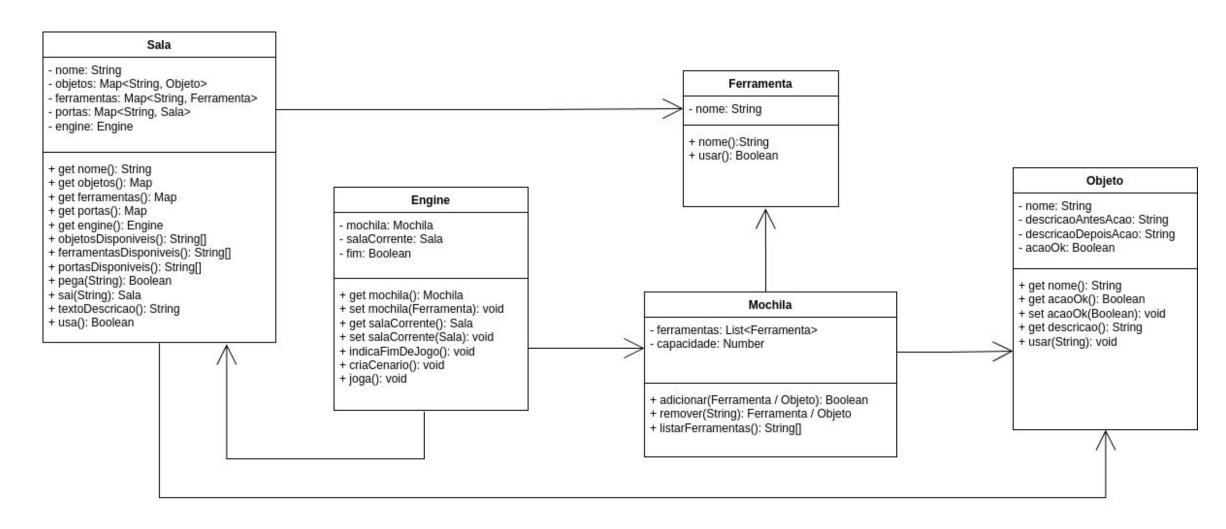

+ nome():String

+ usar(): Boolean
